After the balloting was finished, the

chalice was covered and well shaken and the ballots were publicly counted.

Then, passsing them into a receptacle placed on the table in the center of the

chapel, the two cardinals scrutinizers opened the first ballot and passed it to

a third cardinal, who read it out in a loud voice and the other cardinals noted

As no cardinal received the prescribed two-thirds of the votes a supplementary ballot was taken, with no better result. Consequently, at 11:20 a. m., all the bal-

lots were burned, the smoke being seen from the left side of the piazza of St.

Peters, where a few curjous people, mostly newspapermen, had gathered to

record this mute message.

It was said on good authority that

Cardinais Herrero and Langenieux were unable to leave their "cells" this morn-ing, so that when the time came for voting, immediately after having taken

to the altar his own vote, Cardinal Oreglia showed the members of the sa-

ored college a small empty box having a tiny slid in the cover. This box was locked in the presence of all the cardinals and the key was placed on the altar, after which the three cardinals scrutinizers carried the box to the apartments of the invalids who after taking the prescribed oath, dropped their ballots through the slit into the box which was taken back to the Sis-

box, which was taken back to the Sis-tine chapel, locked and the ballots de-

posited with those of the other cardinals in the chalice on the altar.

The balloting this afternoon did not differ in form from that of this morn-

ing. From what leaked out from the conclave it does not appear that much

progress has been made toward a result, although it is stated that the Ram.

southern exposure, found the heat at midday almost unbearable. The after-

noon ballot ended at 6 o'clock, when the

the burning of the ballots took place many rumors became current and hope

Cardinal Cretoni, in a moment of pro-

EVIDENCE IS INSUFFICIENT

Witness in Other Criminal Actions Now Pending.

From all indications the 14 indictments returned against former Justice of the Peace Gustave Kroeger by the late grand jury will not be pressed and it is more than probable that when Judge Morse convenes court again on Sept. 1, a request will be made by the state to quash the indictments on the ground of insufficiency of evidence to secure a conviction. It is believed that the indictments charge Mr. Kroeger with altering and defacing a public rec-

He is now located in Boise, Idaho, and is ready to come back to Salt Lake any time the officials want him. It is believed that he will be used by the state as a witness in other criminal actions pending and that the indictments against him will be quashed. It is said that the grand jury returned the indictments against the advice of those who had heard the evidence against Kroeger and had weighed the same earefully. Hence it is probable that he will never have to stand trial on them.

School Board Adds An Additional Twenty Minutes t. Each Day's Work for Teachers and Pupils -- Schools to Open Monday September 14 and Close Friday May 27 -List of Holidays- The Year's Calendar.

During the school year of 1903-04 each ; of the large cities the afternoon sessions daily session of the schools in the city will be 20 minutes longer than those of last year, excepting in the beginners' first and second grades, which will remain the same as heretofore. The change was made yesterday afternoon by the committee on teachers of the board of education. Under the new rule the afternoon sessions in all the grades, excepting the three stated above, will commence at 1 o'clock in the afternoon and close at 3:30 p. m., in-

stead of 2:10 as heretofore. It is believed by the committee that 20 minutes more of school work each day will tend to greatly decrease the amount of home study for the pupils. It is contended that 20 minutes' instruction in the school room should be equivalent to and the pupil would derive as much benefit as from one hour's study at home unaided by the guidance of a teacher. Further than that it is the tendency of all the larger cities to increase the length of the daily sessions of the schools. Reports on file in Supt. Christensen's office show that in many
